Sebastian C. Mondrup

Summary

A 26-year-old software engineering master's student at the University of Southern Denmark in Odense, set to graduate in the summer of 2025. Acquainted with various programming languages, frameworks, technologies, and engineering practices.

Work Experience

Period	**February 2025 — Present**	
Job Title	**University Teaching Assistant**	Odense
	I am a TA in the course 'Videregående Objektorienteret Programmering' at SDU.	
Period	**October 2024 — Present**	
Job Title	**SPS Mentor**	Odense
	I mentor a student, helping with structure, planning and more.	
Period	**October 2022 — June 2023**	
Job Title	**Student Application Engineer**	Odense
Technology	**Microsoft Power Platform**	
	I developed internal Power Platform solutions, gaining experience in communication, problem-solving, and navigating an office environment.	
Period	**November 2018 — August 2019**	
Employer	**Børnebiksen**	Svendborg
Job Title	**Kindergarten helper/substitute**	
	While not directly related to my current career path, it taught me valuable skills in people management, multitasking, adaptability, and tackling challenges head-on.	

Education

Period	**2020 — Present**	
Degree	**Software Engineering (Civil-Ingeniør)**	
University	**University of Southern Denmark - SDU**	Odense
	Currently writing my master's thesis	
Period	**2019 — 2020** (dropped out)	
Degree	**IT Technology - Erhvervsakademiuddannelse**	
School	**UCL Erhvervsakademi & Professionshøjskole**	Odense
	I decided to drop out of this course, to instead fully commit to software engineering.	
Period	**2014 — 2017**	
Courses	**Mathematics A / Physics B / Chemistry B**	
School	**Svendborg Gymnasium STX**	Svendborg

Skills

Familiar Programming Languages	Java, C#, Python, TypeScript (React) and more
Tools and Technologies	Git, Docker, Linux, and much more
